About Us

Need a sponsor? Not sure where to look? Well, look no further because BSponsored is here to help!

BSponsored aims to work with all types of businesses and companies to partner with other businesses in the form of sponsorships to help them build a following and gain a reputable audience. We help any and all businesses, whether it be a smaller start-up or a bigger company – Working with them globally.

Sponsorships drive sales and adding sponsorships to your business will help you build that relationship between you and your audience. It also benefits both sides of the deal, bringing in valuable income from the sponsorship.

Our sponsorship platform aims to serve your business, tailoring our service to your specific needs. We will match you with the relevant businesses and companies to sponsor your product or service in order to get the best results!

Our Process

Signing up for our service is free, making it easy for you to understand how we work and what we're all about! From the start, we will aim to find out how you want to benefit from a sponsorship – This will make it easier for us to pair you correctly with the relevant businesses!

After we've discussed with you how your business will benefit from the relevant sponsorships, we will then move forward in the process. Next, we will get in contact with businesses that suit your needs and branding and discuss the terms with them on what the sponsorship will consist of.

All of this is entirely bespoke to your needs, for both the sponsor and the business, so you can benefit from the working relationship positively and gain the results that you expect to see.

Businesses

We work exclusively with brands and businesses that we've personally built solid working relationships with, to give you peace of mind on who you trust to provide sponsorships. All the businesses we work with are completely trustworthy; Businesses we know that you can count on.

We have a wide range of contacts to suit your needs entirely, no matter what your cause or brand is. With this, we can then build your brand to the point where you imagined your organisation to be – if not higher. We aim to exceed your expectations, working to be entirely professional and hold the needs of your organisation with utmost importance.

Other Organisations

We work individually with all types of businesses, non-profit organisations and other organisations to further build their audience and client base. Sponsorships are just one way to achieve this goal effectively and organically, leaving each client thriving with business.

The organisations we work with achieve incredible results after using our help to find sponsorships and find that we provide them with a great marketing platform to then utilise effectively.
